

## PRE-PRESS AND PRESSROOM AUXILIARIES

## DEOXI ROLL

### DESCRIPTION

**Specific product for the removal of limescale deposits from printing press rubber rollers.**

**Deoxi Roll** eliminates completely the oxide created on ink and damping rollers giving the rubber its original characteristics of roughness and softness.

**Deoxi Roll** removes also the residues of dry ink.

### MAIN FEATURES

**Deoxi Roll** is an excellent scraper, formulated to restore the original state of the ink rollers surface without damaging them.

**Deoxi Roll**, thanks to its high ink solvent capacity, can be used even as color change.

**Deoxi Roll** gives the rollers a right ink and dampening film transfer.

### ADVANTAGES BENEFITS

1. Efficient on limescale residues
2. Excellent ink solvent power
3. Improves ink transfer
4. Improves water film spreading
5. Restores the rubbers their original roughness and softness without damaging them
6. **Reduced environmental impact**

### INSTRUCTION FOR USE

Firstly wash the distributions with standard solvent, afterwards pour **Deoxi Roll** on rollers and leave react for approximately ten minutes, until a thin whitish patina is created.

Eliminate the patina by pouring plenty of warm water until complete removal. In necessary, repeat the operation.
