

PRE-PRESS CHEMICALS

DISO AL 80 SPECIAL

DESCRIPTION

Product for cleaning and activation of conventional offset and CTP plates.

Diso AL 91 activates efficiently aluminum, printing and non-printing areas.

Diso AL 91 is a low environmental impact product.

MAIN FEATURES

Diso AL 91 is a high efficiency non abrasive emulsion that allows, with a single product, the contemporaneous cleaning and activation of the plate without damaging it. **Diso AL 91** has excellent degreasing properties facilitating the ink transfer.

ADVANTAGES BENEFITS

1. Excellent plates activator
2. Sharper and more brilliant printing
3. Eliminates scratches and dots
4. Degreases marks and grease stains
5. Improves ink transfer
6. Low environmental impact

INSTRUCTIONS FOR USE

Apply, with a soaked sponge, an even uniform layer of **Diso AL 91**, on the entire plate surface that needs to be treated, rubbing slightly. Wipe with a clean sponge and rinse.
