

DESCRIPTION

A formulation based on Isopropyl Alcohol that completely substitutes IPA.

MAIN FEATURES

ISO 298 is a mixture of alcohols suitable for the preparation of fountain solution.

ISO 298 is significantly cheaper than using pure Isopropyl Alcohol.

ISO 298 is able to reduce drastically the surface tension of the damping solution, facilitating the water/ink balance.

ADVANTAGES BENEFITS

1. High stability both of the product and of the damping solution
2. Lower impact on workers with reduction of the IPA characteristic odor
3. Better ink setting
4. Reduction of working costs with positive repercussions on managerial costs
5. Elimination of ink build ups on blankets and on damping rollers
6. Lower environmental impact

INSTRUCTION FOR USE

ISO 298 has to be dosed following the indications of the manufacturers of printing presses, or in accordance to the normal and usual concentrations.
