

SOLVENTS

RIGEN F 510

DESCRIPTION:

RIGEN F 510 is a regenerating solvent for blankets and ink rollers for daily use.

RIGEN F 510 is efficient in removing the ink that cannot be removed with standard solvents, thus restoring the original conditions of the rubber surface without damaging it.

MAIN FEATURES:

RIGEN F 510, thanks to the combination of various raw materials, is an excellent rubber regenerator.

RIGEN F 510 cleans deeply the rubber pores restoring the original state the elasticity and porosity.

RIGEN F 510, where necessary, is to be used daily.

ADVANTAGES / BENEFITS:

1. Always efficient rollers and blankets
2. Excellent solvency power
3. Sharper printing
4. Low environmental impact
5. Excellent removal of dry ink

INSTRUCTIONS FOR USE:

Spray **RIGEN F 510** on a cloth and pass it on the interested area; leave to react for around 10 seconds and dry carefully.
