

PRE-PRESS AND PRESSROOM AUXILIARIES

TNT BLUE

DESCRIPTION

TNT is a woven non woven fabric for automatic blanket cleaning devices.

TNT has been specifically developed for use in the Graphic Industry.

TNT Blue has been tested according to ISO 9073.2, ISO 105X12 e WS P 160.1(05).

MAIN FEATURES

TNT blue is composed of cellulose and polyester fibers and a binder.

TNT blue has an excellent water/solvent absorption and high mechanical resistance.

TNT blue has an excellent behavior in respect to dry and wet loading at break, of dry and wet elongation at break.

TNT blue develops a high solidity on rubbing, an optimal absorption capacity with a reasonable time.

ADVANTAGES BENEFITS

1. Easy to use and to install
2. Perfect and fast removal of ink residues
3. Does not leave any residues on contact surfaces
4. No tearing under normal using conditions
5. Does not lose color both dry and wet with white spirit, with trichloroethane, ethyleneglycol and acetone
- 6. Reduced environmental impact**

INSTRUCTION FOR USE

TNT blue must be used on automatic blanket cleaning devices.
