

DESCRIPTION

Cleaning solvent with fast evaporation.

Velvet is a specific product for cleaning damping rollers and the mechanical parts of the printing press.

Velvet degreases efficiently without leaving halos.

MAIN FEATURES

Velvet is a solvent based on rapid evaporation substances.

Velvet allows cleaning of rubber and metal rollers, immersed in the damping basin, without polluting the damping solution with oily substances.

Velvet is an excellent ink solvent for cleaning and degreasing without damaging the rubber and the printing plates.

ADVANTAGES BENEFITS

1. fast and efficient
2. low emission of characteristic odor
3. does not damage rubber and metal
4. excellent solvent power
5. high degreasing power
6. does not damage the plates
7. **safe in use**

INSTRUCTION FOR USE

Spray **Velvet** on a cloth and pass on the interested parts.
