

SOLVENTS

WASH IM 660

DESCRIPTION

Water miscible cleaning solvent for rubber blankets and rollers.

Wash IM 660 is particularly indicated for sheet-fed automatic blanket cleaning devices.

Wash IM 660 is approved by BALDWIN / OXY-DRY and by ELETTRA.

Wash IM 660 has Approval from the following offset printing press manufacturers:

- KOENIG&BAUER AG – Sheet-fed offset
- HEIDELBERG DRUCKMACHINEN AG – Sheet-fed offset
- MAN ROLAND DRUCKMACHINEN AG – Sheet-fed offset

MAIN FEATURES:

Wash IM 660 is a cleaning solvent with medium – slow evaporation rate, with excellent ink solvency capacity formulated with very pure raw materials that allow a high capacity of dirt emulsion.

Wash IM 660 cleans deeply all the surfaces without damaging the rubber of rollers and blankets.

Wash IM 660 is particularly indicated for automatic brush cleaning devices.

Wash IM 660 contains corrosion inhibitors.

ADVANTAGES / BENEFITS

1. Excellent cleaning on ink .
2. Indicated for brush systems
3. High performances of removing the lint on rollers and blankets
4. Not aggressive on rubbers
5. Good water mixing level
6. **Reduced environmental impact**

INSTRUCTIONS FOR USE:

Wash IM 660 is used:

- for automatic systems, following the instructions of the press manufacturers;
- for manual cleaning spraying the product on a cloth and passing it on interested parts.

Wash IM 660 has to be diluted in water up to a maximum dilution of 50%.
